Career Objective:

To leverage my skills in Python, SQL, data visualization, and data analysis in a dynamic and challenging environment. Seeking a position as a Data Analyst where I can contribute to business success through actionable insights and data-driven decision-making.

Skills:

- **Python:** Proficient in data manipulation, analysis, and automation using libraries like Pandas, NumPy, Matplotlib, and Scikit-Learn.
 - **SQL:** Skilled in complex queries for data extraction, transformation, and loading (ETL), optimizing queries, and conducting data audits.
 - **Data Visualization:** Experienced with Matplotlib, Seaborn, and Power BI to create clear, actionable visualizations.
 - **Data Analysis:** Strong analytical skills in statistical analysis, trend analysis, and predictive modeling.
 - **Power BI:** Basic knowledge of creating interactive dashboards and reports, connecting to data sources, and data transformation.
 - **ETL Knowledge:** Understanding of ETL processes, with experience in data cleaning, transformation, and loading using SQL and Python.
 - **MS Excel:** Advanced proficiency, including PivotTables, VLOOKUP, macros, and data visualization features
 - **Oracle Cloud Data Management:** Foundational skills in Oracle Cloud services, data modeling, data warehousing, and database administration..
-

Certifications:

Oracle Cloud Data Management 2023 Certified Foundations Associate

Education:

Bachelor of Computer Applications (**BCA**)

Government First Grade College, Vijayanagar

Internships:

Data Analysis Intern, Edunet Foundation (EF)

- Analyzed Indian agriculture sector data from 2005 to 2023, identifying key trends and insights.
 - Improved data retrieval and processing efficiency using advanced SQL queries and Python.
 - Developed Power BI dashboards to provide real-time insights, enhancing decision-making efficiency.
-

Projects:

Excel Interactive Dashboard for Vrinda Store

- Analyzed sales data to identify trends and optimize inventory, leading to a 15% sales increase and 10% reduction in inventory costs.
- Created an interactive dashboard using Excel (PivotTables, charts, Power Query, macros) for real-time data exploration.
