Work Experience

Intern-Data Analyst   **Feb-Apr,2024**

Edunet Foundations

- Automated repetitive data extraction tasks, reducing processing time by 20%
- Assisted in design and maintenance of Power BI dashboards for accurate and real-time data visualization
- Worked proficiently with Excel to create pivot tables, advanced formulas, producing monthly reports and data analysis.
- Gained valuable experience working within a specific industry, applying learned concepts directly into relevant work situations.

EDUCATION

GFGC, Bangalore University   **Aug,2024**

Bachelor of Computer Application

CGPA-7.5

KBC PU College, Pre-University   **Aug,2021**

PCMB

Percentage-89%

SKILLS

Data Analysis: SQL, Python (Pandas, NumPy), Excel (Advanced)

Database Management: MySQL

Big Data Technology: Hadoop

Data Visualization: Power BI,Tableau

Web Scraping: Scrapy

PROJECTS

Agriculture Production Dashboard -Power BI

- Developed an interactive Power BI dashboard to monitor and analyze sales performance across regions.
- Created dynamic visualizations and implemented DAX calculations to track KPIs such as total sales, growth percentage, and top-performing regions.
- Provided actionable insights that supported data-driven decision-making, improving overall sales strategy.

Excel Sales Data Analysis

- Analyzed and visualized sales data using pivot tables and charts to identify trends and key performance indicators (KPIs).
- Performed data cleaning and consolidation from multiple sources to ensure accurate reporting.
- Created an automated Excel dashboard for real-time sales tracking and performance analysis.

Python Web Scraping for Market Research

- Developed a Python script using Scrapy to scrape product data from e-commerce websites(**Amazon and Flipkart**).
- Cleaned and analyzed the scraped data to identify pricing trends and competitor strategies.
- Automated the data collection process, reducing manual research time and increasing data accuracy.

ADDITIONAL INFORMATION

CERTIFICATIONS: Python Programming Certification. Career Essentials in Data Analysis by Microsoft and LinkedIn. Excel: Mother of Business Intelligence. Introduction to Data Analytics by IBM. OCI Gen AI Professional Certification

INTERESTS: Cloud Computing, Machine Learning, AWS

Languages: Fluent in English (spoken, written, and read)

Soft Skills: Analytical Thinking, Attention to Detail, Problem-Solving, Time Management
